

The diagram illustrates a connection between a terminal block and a terminal strip. On the left, a terminal block labeled "TerminalBlock_RND_205" is shown. It has six terminals, each with a blue circular connector. On the right, a terminal strip labeled "REF**" is shown. It has six terminals, each with a blue circular connector. The terminal block is connected to the terminal strip via a series of blue circular connectors. The terminal block is labeled "TerminalBlock_RND_205" and the terminal strip is labeled "REF**".
