

A pixel art logo for a Dell server. The logo is contained within a light gray rectangular frame. At the top of the frame, there is a row of 24 vertical brown bars of varying heights, resembling a server's front panel. On the left and right sides of the frame are two solid brown rectangular blocks. The text "POWERedge" is written in a pixelated font across the middle. "POWER" is in gray, "edge" is in gray, and "REF" is in yellow. Below "POWERedge" is the text "REF**" in gray. The entire logo is set against a white background, which is itself on a pink border.
